45TH CONVENTION OF

The Protestant Episcopal Church of the United States.

ASSEMBLED AT RICHMOND

Convention is Expeted To Be One of the Most Interesting in the History of the Church—Warm Welcome Extended Churchmen.

Richmond, Va., Oct. 2.—Tracing all of the problems that have been discussed and passed over in conventions gone by and a number of new questions of great importance, the Protestant Episcopal church of the United States assembled Wednesday for its forty-fifth triennial convention, which is expected to be one of the most interesting in the history of the church.

The Right Rev. A. F. Winnington-Ingram, bishop of London, was present and preached the sermon at the celebration of holy communion in Holy Trinity church, this being the opening ceremony. The only business conventions Wednesday were for the purpose of organization, the house of bishops meeting at 3:30 p. m. in the state capitol, and the house of deputies at the same hour in St. Paul's church.

A warm welcome has been given the visiting churchmen. The business section of the city is decorated with flags and bunting, and by night was brilliant with an electrical display.

The bishop of London, who reached here Tuesday and went to the residence of Bishop Gibson, of the diocese of Virginia, spent the entire afternoon on the golf links where he made many fiends. Lay delegates to the convention number many well known business men from every section of the country.

Notable among these is J. Pierpont Morgan, the New York financier, who occupies the Rutherford mansion.

There are about 800 members of the general convention, including the bishops of the several dioceses and missionary districts and four clerical and four lay deputies from each of the dioceses and one each from every missionary district.

LEGISLATURE COST $102,166.

Alabama State Auditor Completes His Statement.

Montgomery, Ala., Oct. 3.—In a statement made up in the office of State Auditor William W. Brand, it is shown that the receipts of the state from all sources during the year which closed Sept. 30 were $3,975,450.33, compared to $3,776,546.94, an increase of $198,907.39; for the same time last year. The disbursements were $4,007,919.42 as compared with $3,379,591.95 the year before, an increase of $628,327.47; the excess of the increase of expenses over receipts $429,420.08.

The year just closed showed from the convict fund gross receipts of $646,345.05, as compared to $759,732.80 the year before.

The large disbursement is brought about by the sessions of the legislature, which cost the state with the special recess committee the sum of $102,166.81, to which may be added $2,241.36, the expense of the insane hospital commission which sat by appointment of the governor after the legislature had adjourned.

TWO AUTO ACCIDENTS.

One Man Was Killed and Two People Hurt at Baltimore, Md.

Baltimore, Md., Oct. 2.—One man dead, another in a hospital with a broken leg and other injuries, and a girl with a fractured skull in another hospital, is the sum of the major injuries resulting from two automobile accidents here Tuesday night.

The dead man is John T. Hutchinson, an expert machinist, of Philadelphia. He and H. X. Hooper, of Glenarm, Baltimore county, were returning to that place after dark by way of a new boulevard. They had reached a point where an old bridge is being replaced by a new one and apparently miscalculated their exact poistion. The automobile plunged over a 25-foot embankment, landing upside down with Hutchinson beneath it. He was dead when taken out.

Hooper, who had been driving the car, was thrown clear as the machine went over the bank and escaped death.

An automobile driven by Howard Gilland, containing also Misses Beulah Heighton and Irene Cook, was run into from the rear by another car, driven by E. L. Bartlett, Jr. The impact threw Miss Heighton out, and the physicians at the hospital say that she is in a critical condition. The other occupants of the car were not seriously hurt.

GERMAN AERONAUTS ARRIVE.

They Will Take Part in International Aeronautic Cup Race.

New York, Oct. 3—Three celebrated German aeronauts, two of whom will take part in the international aeronautic cup race to start from St. Louis Oct. 21, have just arrived here from Europe.

Those who will compete for the international cup are Oscar Irbaich and Hans Heidman and with them is Captain A. D. Hildebrandt, representing the aeronautic branch of the German army. He has come to this country to witness the big race, in which he is not to be a competitor.

The third German competitor is Paul Meekel, who, with Captain Hugo Von Abercorn, will leave Germany for the United States next week.

The international flying event which is now an annual affair, was held last year from Paris, Lieutenant Frank Lahm, of the United States army, winning with a flight of 452 miles.

Fatal Rebound of Shotgun.

Owensboro, Ky., Oct. 3.—The rebound of a single-barreled shotgun caused the death of William McGrady, aged 53 years. McGrady was walking around a tree in the woods of Davies county for the purpose of getting a shot at a squirrel. The but of the gun was resting against his abdomen, when he stepped in a hole and the weapon was discharged. He felt a pain in his abdomen, but did not think much of it until he reached his home an hour later. There he became ill and died in agony. An autopsy was performed, and it was found that his intestines had been badly torn.

Cripple Fatally Shoots His Wife.

Youngstown, O., Oct. 3.—McGinn, of Hubbard, a cripple, fortified himself with numerous drinks and a revolver and upon arriving home shot his wife in the breast, wounding her probably fatally, though physicians say she has a slight chance of recovering. Four years ago McGinn's brother, also a cripple, cut his wife's throat and then his own. He died in a penitentiary, where he was serving a life sentence for the crime. When Thomas McGinn was arrested soon after the shooting he professed that he could not recall it.

STARTLING CHARGES

Millions Gone, but where No One Seems to Know.

NEW YORK STREET RAILWAYS

State Attorney General Jackson Files Petition Calling for the Appointment of Receivers for the Same—Deficit Of $10,000,000.

New York, Oct. 3.—Stratling charges of extravagance and neglectful management or, if not that, failure to account for millions of dollars, are made by State Attorney General Jackson, in a petition filed calling for the appointment of receivers for the New York City Railway company and the Metropolitan Street Railway company and also demanding the dissolution of the New York City Railway company.

The application for receivers was made by Justice Ford, of the supereme court, who issued an order for the defendants to apear in court on October 3 and answer to the complaint.

The attorney general's action further complicates a situation already considerably entangled by reason of the various interrelated corporations which control and operate the traction lines on Manhattan island.

Adrian H. Joline and Douglas Robinson were appointed receivers for the New York City Railway company by Judge Lacombe, in the federal court, several days ago, and the same receivers were named in the same court on application of the company's attorneys to act for the Metropolitan Street Railway company.

The New York City Railway company leases the lines of the Metropolitan Street Railway company under a guarantee to pay 7 per cent dividends on the Metropolitan stock. This dividend has never been earned since the date of the lease, and the attorney general charges that the deficit to date amounts to more than $10,000,000.

The attorney general declares also that the Interborough Metropolitan company, which absorbed the New York City Railway company in 1905, assumed all obligations of the New York City Railway company, and he sets forth that the New York City Railway company and its directors have taken no steps to force the Interborough Metropolitan to carry out its obligations.

PERJURY CHARGED TO POWERS.

Alleged Slayer of Goebel Is Indicted on a New Charge.

Frankfort, Ky., Oct. 3—The Franklin county grand jury Tuesday returned an indictment against Caleb Powers, now being held in the Goebel assassination case, and others with conspiring together with intent to procure others to swear falsely as witnesses in the Scott circuit court, to the effect that Henry Youtsey, of Newport, now in the state prison, under conviction of complicity in the Goebel case, had admitted that he fired the shot which killed Governor Goebel in January, 1900. The others indicted with Powers are:

Howard M. Denton, of Newport, a lawyer; Jennie Gentry, alias Julia Sars, of Lexington, and Dave Cushing, said to be of Kenton county.

Letter Carriers' Convention.

Atlanta, Oct. 3.—The rural Free Delivery Carriers' association of the United States will convene in national convention in the senate chamber, Georgia state house, Tuesday morning, Oct. 8, at 10:30 o'clock, and will remain in session four days, two meetings being held each day. Delegates from every state in the union, from far-off California, from remote Alaska, and from Georgia, will be in attendance.

ARRESTED AT GRAVE.

Goddard Claims He Killed His Brother Accidentally.

Lexington, Ky., Oct. 3.—At the grave of his brother, James J. Goddard, whom he killed accidentally, it is said, in a fight over a game of cards, Charles W. Goddard was arrested by Detectives Johnson and Veal. The arrest took place under the shadow of the Henry Clay monument at Lexington cemetery.

The arrest was made so quietly that even the weeping mother of Goddard did not realize that her only son had been torn from her. J. W. Goddard, the father, had called his son from the grave and introduced him to the detectives.

"You must go with us," said Detective Veal, and young Goddard made no reply.

When he had placed the last wreath of flowers on his brother's resting place Goddard walked out of the cemetery with the officers and was placed in jail on the charge of fratricide.

Goddard said he would have surrendered to the police himself but desired to attend his brother's funeral before going to jail. He declared he shot his brother accidentally by pulling the trigger of a revolver when he struck Henry Hunter on the head with it.

DIAZ RECEIVES ROOT.

Meeting Between the Two Statesmen Was Most Cordial.

Mexico City, Oct. 3.—With all the members of the Mexican cabinet present, President Diaz received Secretary Root at 11 o'clock Tuesday morning in the hall of ambassadors at the national palace.

The meeting between the two statesmen was most cordial. Mr. Root, who was presented to President Diaz by Ignacio Mariscal, the foreign minister, said he was delighted to meet the man who had made Mexico one of the foremost Latin-American countries and he hoped for a continuance of the good results arising today from the cordial relations between the United States and Mexico.

President Diaz, in reply, said Mr. Root's zealous work for a better understanding between the United States and Latin-America was well known and appreciated and he welcomed the secretary in the name of the Mexican nation.

Mr. Root was then presented to each member of the cabinet, who all spoke words of greeting and good will.

LIVED AS A MISER.

Lander Merrick Left Estate Valued at More Than $350,000.

Chicago, Oct 3.—A special to the Record-Herald from Kenosha, Wis., says:

After living a miser for more than 50 years, and accumulating more than $350,000, Lander E. Merrick died at the Home of Strangers in this city Wednesday.

The old man came to Kenosha county in 1840 and lived in the town of Randall until two years ago, when the officers of the town found him nearly half starved and took charge of him and his property.

A guardian was appointed and when the hut which the old man occupied was searched, $350,000 in cash and securities was found.

George W. Eldridge of Richmond, Ills., former state senator, a nephew of Merrick, will receive a portion of the estate.

This action was taken by the democratic state central committee, which declared the measure to be "the purpose and intent" of the primary election law passed a year ago.

RIVER BOAT BURNED

Was Loaded With Cotton and Naval Stores.

PLYED ON THE FLINT RIVER

Two Persons Were Drowned as a Result of the Fire—The Boat and Her Entire Cargo Are Reported To Be a Total Loss.

Albany, Ga., Oct. 3.—The steamboat, Raimond H, which plys the Flint river between Albany and points below, was burned at Jones' Landing between here and Newton Wednesday morning.

The boat was on its regular trip to the city of Albany, and was loaded with cotton, naval stores and cotton seed.

Two of the boat's hands, Florette Watkins and West Camp, both negroes, were drowned, and ninety-two bales of cotton, fifty-two barrels of resin and spirits, and 250 casks of cotton seed were burned.

The river boat and its entire cargo are a total loss.

PERPETUAL QUARANTINE.

New Orleans May Adopt New and Modified System for Protection.

New Orleans, La., Oct. 3.—The probability that a new and modified quarantine against tropical countries will be maintained perpetually in New Orleans, instead of a quarantine in the summer months only, as heretofore, was announced Wednesday by Surgeon J. H. White, of the Marine Hospital service.

Throughout last summer, the first in which federal quarantine succeeded state control at the Mississippi river quarantine station, Dr. White was perfecting a system of watching all passengers from tropical ports for a stated number of days after they landed. The old system was to hold all incoming passengers rigidly at quarantine whether well or sick. Under the new arrangement all well persons come ashore immediately and go with freedom wherever they wish until suspicious symptons develop. Up to now, over 1,600 persons have been admitted here from tropical ports under the surveillance system.

The new quarantine has proved not only apparently safe, but less onerous than the former system.

FIRE LOSS OF $600,000.

Port Limon Is Visited by Destructive Blaze—Loss of Life.

Mobile, Ala., Oct 3.—Captain Aamot, of the Norwegian fruit vessel Bertha, which arrived here Tuesday evening, brought news of a disastrous fire which visited Port Lima last Wdenesday morning and entailed a loss estimated at $600,000.

Four blocks in the heart of the business section of the town were destroyed and several natives lost their lives in the burning buildings.

Most of the destroyed buildings were two story structures. Neither the shipping nor the manufacturing industries suffered loss. Except for a loss of about $15,000 in stores by the United Fruit company, the foreigners were not sufferers by the fire.

The fire is believed to have been of incendiary origin. It was fanned by a steady breeze and swept everything before it. The natives were panic-stricken and refused to help fight the flames.

Sheriff S. S. Belser Dead.

Montgomery, Ala., Oct. 3.—Sheriff S S. Belser died Tuesday as a result of a stroke of paralysis. He was in apparent good health when he retired Monday night. Later he complained of his leg hurting him. Pretty soon he lapsed into unconsciousness, from which he never recovered.

GAINESVILLE FURNITURE COMPANY

THE LATEST GOSSIP From GAY NEW YORK

BY OUR REGULAR CORRESPONDENT.

New York, Oct. 3.—Parkhurst is back. And now Murphy and his Tammany following have another worry; for while the strenuous reformer may make most of his trouble for the police department—trying to prove its inefficiency—after all Parkhurst is chiefly a municipal reformer, with especial antipathy for Tammanyism. Bourke Cochran and Tom Grady are his particular dislike.

Now is the time when Ivens doesn't want to lose an inch of ground. He has the Inter-Metropolitan interests in much the same state of unrest that Tom Lawson had the Standard Oil people at one time. The talk is that the Ryan-Belmont crowd wouldn't be in session if they weren't much disturbed. It's up to Ivins now to keep at his boring harder than ever if he wants to be deemed a real, bona fide "inquisitor."

Of course Fire-Chief Croker is right. Buildings higher than fifteen stories can't be handled by the department in the event of a stiff fire. But they'll keep on increasing their height nevertheless. Croker may be counted upon to invent a way to fight fires in skyscrapers.

The new law that went into effect on the first of September making it illegal for parties to be harbored as husband and wife unless their status as such is established, is stirring things up in this go-as-you-please town. Hence plenty of "affinities" are coming to the surface. And they're being exploded. Sober, serious New Yorkers like the reformation immensely; but it's a great shock to the ultra liberal set.

Said a celebrated New Yorker to me last night in the Union League club: "Why is it that so much fuss was made over Fairbanks and the cocktail, when it is an open secret that Roosevelt likes his nip? Nobody seems to bother at all about Roosevelt's penchant for 'forty-drops,' but the good women of the W. C. T. U. made a terrible to-do years ago about what and how much Cleveland imbibed?" Some sense in that query, surely. But perhaps it arose from Fairbanks making too much capital of his buttermilk fondness? John G. Carlisle and Henry Watterson to be heard from.

Nobody is taking Fingey Connors' big bet about Chanler being the next Democratic candidate seriously. Nobody in New York—be they ever so vividly Democratic—imagines that Fingey Connors' man, no matter who he be, could get a show in. Connors is not regarded with any gravity as a maker, or unmaker, of anything in New York politics. As a boss stevedore on the great lakes he is a prodigious success financially. And he helped Murphy of Tammany to run things at the last State election for the Democratic "deal." But he is a huge joke when it comes to National politics.

Should Cleveland fail to get well, and pass away in the near future, what influence he would have preliminary to the next Democratic convention would be lost to Mayor McClellan; and without Cleveland's influence in the way of a recommendation the doughty little mayor wouldn't draw much water for a place on the ticket. A friend in Princeton writes me that he understands Cleveland would like to have an opportunity to recommend McClellan for second place. Of course McClellan wouldn't aspire higher.

"No man you've heard mentioned yet," said an ex-senator of the United States to me day before yesterday, "will be nominated for the next Presidency. Why? Well, because time does such unexpected things. Two strong men will be put up; but there isn't a name on the public lip today that it would be safe to gamble on. If you want my candid opinion, neither Presidential candidate has yet been thought of; and Lincoln-like, he'll be no seeker for the job."

Victor Herbert tells me he is eager to get to work on his grand opera for Hammerstein. He'll make it the crowning work of his career; and naturally is very finnicky about who writes the libretto. There are plenty willing to tackle the task, but the selection will be most cautiously made. There is some suggestion that young Mackaye be given the chance; for he seems to be the ablest lyrist, that is on high lines such as grand opera calls for.

A friend of mine called on Hammerstein the other day to inquire if he is looking for a site for an opera house in Washington, D. C., and the impressario informed him that he was ready to build houses in a limited number of cities where local people are prepared to enter into the project to the extent of contributing the land. On a $200,000 lot of land Hammerstein will erect a $200,000 opera house.

GUARDS PREPARING FOR COMING CAMP

Semi-Annual Inspection and Muster Held on Tuesday Evening.

INSPECTION WAS GRATIFYING

Thirty-Five Men Responded to Command, and Inspectors Found Uniforms and Equipments in Good Condition—To Leave October 18.

Company H, Second Infantry, Florida State Troops, the Gainesville Guards, of which Captain John W. Blanding is in command, is making every preparation for the coming encampment, which will be held at Pensacola with the United States Coast Artillery, beginning on the 19th inst.

Captain Blanding is ably assisted in the command of his company by First Lieutenant Warren and Second Lieutenant W. D. Wheeler, two military men of experience. Lieutenant Warren was transferred from the Franklin County Guards, Apalachicola, where he served with efficiency, while Lieutenant Wheeler is a graduate and formerly an officer at East Florida Seminary.

On Tuesday evening the company, which has been drilling regularly twice a week for the past month, held the semi-annual inspection and muster. The inspection was well attended here, thirty-five men responding to the command. The inspection was conducted by the commanding officer and his lieutenants, and the soldiers made a very creditable record, their uniforms, arms and accoutrements as a rule being found in first-class condition.

There was also an inspection of the Micanopy squad, consisting of fifteen men, which was conducted by Sergeant Wm. P. Welch. Sergeant Welch reported everything satisfactory.

For the past two weeks Captain Blanding has been instructing his men in picket duty, and in this line they have become very proficient.

The following order has been issued by Commander Blanding:

"Armory Co. 'H,' 2nd Infantry F. S. T.,
"Gainesville, Fla., Oct. 1, 1907.

"Orders No. 13.

"I. In accordance with G. O. No. 11, A. G. O. C. S., this company will take part in the coast defense maneuvers with the U. S. Coast Artillery at Pensacola, Fla., beginning October 19th. This will necessitate leaving Gainesville on October 18th. Orders covering this movement in detail will be issued at a later date.

"II. All members of the company will be required to attend these exercises unless granted a furlough. All applications for furlough must be made in writing and addressed to the commanding officer of the Second Infantry, Orlando, Fla., and handed or mailed to me immediately. All members not excused and who fail to report will be tried by court martial at the conclusion of the encampment.

"III. In addition to the regular uniform and equipment issued to each man, which will include one Kahki colored flannel shirt, all members will be required to supply themselves with the following articles: At least one extra shirt, either flannel or chambray, one black necktie, two suits of under clothes, three pairs socks, two pairs shoes, one of which must be russet leather. No low-quarter shoes will be allowed. Also two towels, one blanket and necessary toilet articles. Blue uniforms will not be taken to camp, and no white collars, cuffs, etc., will be required. The articles mentioned above will, of course, include those worn by each soldier, and will not be in addition to what is worn.

"IV. Copies of this order furnished to members will be retained by them for reference. All shelter tent rolls will be inspected before leaving for camp, and no excuse for failure to comply with Par. 3 of this order will be accepted."

Outlaw Gonzales Killed.

San Antonio, Tex., Oct. 3.—A special from Guadalajara, Mexico, says that dispatches received here convey information of the death at the hands of rurales of Catarina Gonzales, a notorious outlaw. Gonzales encountered the soldiery following a raid, and in the fight which followed, he and several of his men fell dead and others were mortally wounded.

GET WHAT YOU WANT

The "Just as Good Kind" Never Pays.

If there is one thing more than another that should aggravate a self-respecting person, it is to be told that the article they ask for at their druggist's is not to be had, but that they can have something "just as good or better." The principal reason for such attempts at substitution is either the desire of the storekeeper to sell something on which he can make more money, or he hasn't the goods asked for, and wants to make a sale of something in its place.

Every reader of this paper should bear in mind when asking for Vinol, the modern cod liver oil preparation, that it is for sale in Gainesville at our store, only, and that it can always be had when asked for.

The reason Vinol is so far superior to old-fashioned cod liver oil and emulsions is because it is made by a scientific, extractive and concentrating process from fresh cods' livers, combining with peptonate of iron all the medicinal, healing and body-building elements of cod liver oil, but no oil.

As a body-builder and strength-creator for old people, delicate children, weak, run-down persons, after sickness and for chronic coughs, colds, bronchitis, and all throat and lung troubles, Vinol is unexcelled.

No one wants an old fashioned cod liver oil preparation or emulsion after once tasting delicious Vinol. Try it. If it fails to benefit we will return your money.—W. M. Johnson, Druggist, Gainesville, Fla.

FIRST BAPTIST CHURCH.

Interesting Services Will be Held at This Church Next Sunday.

In commemoration of the return to duty of the pastor, Rev. S. B. Rogers, who has been so long absent on account of illness which incapacitated him for work, there will be a grand rally day at the First Baptist church Sunday, when friends of the church are cordially invited to join with the membership in this rally.

Services will be held at 10:30 a. m. and 7:30 p. m. Pastor Rogers feels that he will be strong enough at these services to at least resume the pulpit work, and he desires every member of the church and his friends to join him in this great rally-day service.

Wanted—Hardwood Timber.

The Brown-Jenings Hardwood Company of Lake Butler, Florida, are in the market for large quantities of hickory, white oak and ash timber. They offer to buy it either in the log or sawed into plank. Now that the price of pine is off, this is an opportunity for sawmills to work on lumber in which there is a profit, as we are offering fancy prices for such lumber. This also affords the tie men, who are equipped with teams, a chance to get out logs at a good figure.

Mrs. McCormick's Display.

The fall millinery opening of Mrs. F. T. McCormick, 106 West Main street S., which began yesterday and will continue throughout today, is one of the most attractive ever held in the city, and all day during yesterday until 9 o'clock in the evening, the store was thronged with ladies who admired the attractive styles.

The windows were also handsomely decorated, two elegant bust forms having a tendency to attract a great many.

During the day music was furnished on the piano by Joseph Dupree, who is a fine performer.

UNITED STATES LAND OFFICE.

Report for Quarter Just Ended Makes Very Encouraging Showing.

Receiver Shields Warren of the United States land office furnishes the following report of the business transacted by that office for the quarter ending September 30, 1907, which will make interesting reading to many:

Lands sold—Fifty-six commutted homesteads, 6502.03 acres; revenue, $8127.66. Excess, 67.01 acres; revenue, $83.92. Forty-one timber and stone filings, 3500.55 acres; revenue, $8772.62. Five Ft. Jupiter reservation entries, 549.70 acres; revenue, $290.87. Revenue from sale of preference rights, $509.76. Received fees and commissions, $305.20. Total acreage, 10619.29; total revenue, $20839.03.

One hundred and ninety-eight homestead entries, 21563 acres; 100 final proofs accepted, 11228.54 acres.

This report shows an increase of business for the preceding quarter of a substantial nature, and the officials of the land office are well satisfied with the same.

This increase is due largely to the fact that new-comers from every section of the United States, thrifty settlers, are coming to Florida and taking advantage of securing by homestead entry tracts of fertile lands, adapted to every class of horticulture and agriculture, with the result that the State is rapidly becoming filled up with this desirable class of settlers.

NOTABLE MEDICAL DISCOVERY.

Of Special Value to Many Here in Gainesville.

One of the most notable discoveries and one that undoubtedly appeals more than anything else to many people here in Gainesville is the combination of stomach remedies in the Mi-o-na treatment. This prescription has worked wonders, and there is always no excuse for anyone suffering with indigestion or weak stomach.

It acts specifically upon the muscles of the stomach and bowels, strengthening and stimulating them so that they readily take care of the food that is eaten. It also increases the flow of gastric juices, thus getting from the food the nourishment that is necessary for health and energy.

The symptoms of indigestion are numerous, such as distress after eating, flatulence, heartburn, sick headaches, dizziness and irritability. These are all dispelled by a few doses of Mi-o-na when the trouble is recent, but just as surely in long standing and chronic cases if the treatment is followed for a reasonable length of time.

So positive are the good effects following the use of Mi-o-na that the remedy is sold by J. W. McCollum & Co. under an absolute guarantee to refund the money if it should fail to cure.

Work Progressing.

The street gangs in various sections of the city are keeping well occupied now. Many improvements are being made in the matter of filling in depressions and other repairs. About the most important at this time now, however, as far as magnitude is concerned, is the paving of East Main street. Work began on this thoroughfare two or three days ago, and is progressing nicely. The material used is crushed rock and gravel, the same as was employed in the construction of West Liberty street, which is said to be very durable. West Liberty has been constructed for nearly two years, and has been subjected to hard usage, and the thoroughfare today is in first-class condition.

Justice Colman's Court.

Jim Jones, a colored man, was arraigned in Justice Colman's court upon the charge of larceny of clothing from another negro, but the evidence against the man was so flimsy that Justice Colman ordered him discharged.

Commissioners Adjourned.

After a busy two-day session, the Board of County Commissioners adjourned Wednesday afternoon, but will meet again Monday next for the purpose of receiving the county tax books, as required by law.

ALL WOMEN SUFFER

from the same physical disturbances, and the nature of their duties, in many cases, quickly drift them into the horrors of all kinds of female complaints, organic troubles, ulceration, falling and displacements, or perhaps irregularity or suppression causing backache, nervousness, irritability, and sleeplessness.

Women everywhere should remember that the medicine that holds the record for the largest number of actual cures of female ills is

Lydia E. Pinkham's Vegetable Compound

made from simple native roots and herbs. For more than thirty years it has been helping women to be strong, regulating the functions perfectly and overcoming pain. It has also proved itself invaluable in preparing for child-birth and the Change of Life.

Mrs. A. M. Hagermann, of Bay Shore, L. I., writes:—Dear Mrs. Pinkham:—"I suffered from a displacement, excessive and painful functions so that I had to lie down or sit still most of the time. Lydia E. Pinkham's Vegetable Compound has made me a well woman so that I am able to attend to my duties. I wish every suffering woman would try Lydia E. Pinkham's Vegetable Compound and see what relief it will give them."

Mrs. Pinkham's Standing Invitation to Women

Women suffering from any form of female illness are invited to write Mrs. Pinkham, at Lynn, Mass. for advice. She is the Mrs. Pinkham who has been advising sick women free of charge for more than twenty years, and before that she assisted her mother-in-law Lydia E. Pinkham in advising. Therefore she is especially well qualified to guide sick women back to health.

Alabama Board of Examiners.

Montgomery, Ala., Oct. 3.—The state board of medical examiners, which is also the state committee on public health, is gathered in Montgomery for the purpose of examining applicants for the practice of medicine and to look into the health of the state under the broader plan that is made possible by the increased appropriations. This meeting is by virtue of a new law that was adopted by the last legislature and the work done in the way of examinations has been heretofore in the hands of the county boards.

London Doctors in Convention.

London, Oct. 3.—The change the practice of medicine is undergoing, was the keynote of several addresses made by leading London doctors at the opening Tuesday of the winter session of the medical schools connected with the London hospital. The speakers said the day was coming when the doctor in private practice would disappear and be replaced by the public health officer whose work would lie in the prevention more than in the cure of disease.

GOT HIS HAIR BACK.

Was Perfectly Bald When He Started to Use Newbro's Herpicide.

Frederick Manuell, Maryland block, Butte, Montana, bought a bottle of Newbro's Herpicide, April 6, '99, and began to use it for entire baldness. The hair follicles in his scalp were not dead and in 20 days he had hair all over his head. On July 2 he writes, "and today my hair is as thick and luxuriant as any one could wish." Newbro's Herpicide works on an old principle and with a new discovery—destroy the cause and you remove the effect. Herpicide destroys the germ that causes dandruff, falling hair, and finally baldness, so that with the cause gone the effect cannot remain. Stops falling hair at once and a new growth starts. Sold by leading druggists. Send 10c. in stamps for sample to The Herpicide Co., Detroit, Mich.

PRESIDENTIAL FORECASTS.

The Sun's Washington correspondent writes as follows of the probable candidates for President and Vice President:

"The Chicago Tribune recently completed a political poll of the country which has brought out some very interesting facts. At the present time the preponderance of Republican sentiment is for William H. Taft for President—provided Roosevelt declines to be a candidate. Fairbanks, Knox, Cannon, and Cortelyou, held in high esteem by party men everywhere, apparently are not in the running, while Gov. Hughes of New York, who is as yet little known in the political world, overtops them all. The most astonishing thing is that La Follette, that prince of radicals, bids fair to become stronger than they. From this it appears that radicalism, while not so violent now as it has been, is still exceedingly strong and healthy, and the conservatives at this writing appear to have but little show. Taft, so far, backed by the efforts and eulogies of the administration, has had rather smooth sailing. But there have been no determined efforts in his behalf except in his own State—Ohio. The politicians of the great States of New York, Pennsylvania, Wisconsin, Indiana, and Illinois, have their own axes to grind, and he will have a pretty hard row to hoe when his campaign in those States reaches an active stage. Without the support of those States his case is well nigh hopeless, though if Roosevelt can force the New York delegation to Taft it will be a strong factor in his favor. But in New York Hughes must be reckoned with, and he is a man who cannot be dictated to. He has his State behind him, and should he intimate to the delegates that he would like them to consider him, Roosevelt, Taft, and everyone else would be thrown overboard.

"That Bryan is all-powerful and a man to be feared is evidenced by the efforts of the President's friends to have the Republican nominating convention held over until after the Democratic convention, when it will be known who the Republicans will have to contend with. They take the ground that Roosevelt is the only man who can beat anyone the Democrats may nominate, and they fear that if Roosevelt should be nominated in advance of the Democratic selection, Bryan will be the man to go against him, and in that event Bryan's principal argument would be against a third term for any President. In that event a short campaign would be in favor of the Republican party.

"It is also said that Judge Parker has designs on the Presidential chair, and that his New York friends are earnestly working for his nomination. They believe that the wave of radicalism is now receding, and that by the time the National campaign opens, Parker, as a conservative, will be the most available man for the Democrats to nominate and go up against the Republicans. They are, however, making a big mistake. Because the lusty hue and cry against the corporations has somewhat subsided is no sign that the radicals are losing their first enthusiasm and becoming more conservative. The public has learned its lesson well, and so have the sensible business men of the country. Perfect peace and quiet will only come when the necessary reforms have been accomplished. People have become enamored of the Roosevelt doctrines, and of the Democrats Bryan is the only man who closely approaches that standard, and he is growing in strength every day. The question that will confront the Democrats is apt to be, not the selection of a man for the Presidency, but the naming of a man strong enough to be Bryan's running mate, and that man is likely to be Johnson of Ohio if he is successful in his mayoralty election, or Chanler of New York."

It is announced that Senator Tillman is going to San Francisco to deliver a lecture on the Japanese question. We trust nobody sees any connection between this announcement and the sending of the battleships to the Pacific.

Perhaps we are a little bit dense, but we do not understand just how the President expects to prevent fully illustrated articles on his Louisiana bear-hunt by merely excluding reporters from the hunt.

HOW THEY DINED.

Methods of the English at Table in the Seventeenth Century.

The old English had three meals a day, of which the chief meal was taken when the work of the day was finished. The first meal was at 9, dinner was about 3 o'clock, and supper was taken just before bedtime. The Normans dined at the old English breakfast time or a little later and supped at 7 p. m. In Tudor times the higher classes dined at 11 and supped at 5, but the merchants seldom took their meals before 12 and 6 o'clock.

The chief meals, dinner and supper, were taken in the hall both by the old English and the Normans, for the parlor did not come into use until the reign of Elizabeth. Breakfast did not become a regular meal until quite lately, and Dr. Murray in the Oxford Dictionary gave 1463 as the date of the earliest quotation in which the word occurred. The meal did not become recognized until late in the seventeenth century, for Pepys habitually took his draft of half a pint of Rhenish wine or a dram of strong waters in place of a morning meal. Dinner was always the great meal of the day, and from the accession of Henry IV. to the death of Queen Elizabeth the dinners were as sumptuous and extravagant as any of those now served.

Carving was then a fine art. Each guest brought his own knife and spoon, for the small fork was not introduced into England until Thomas Coryate of Odcombe published his "Crudities" in 1611. Pepys took his spoon and fork with him to the lord mayor's feast in 1663. The absence of forks led to much stress being laid upon the act of washing the hands both before and after meals and to the rule that the left hand alone should be dipped into the common dish, the right hand being occupied with the knife.

The perfect dinner at the best time of English cookery consisted of three courses, each complete in itself, and terminated by a subtlety or device, the whole being rounded off with ypocras, after which the guests retired into another room, where pastry, sweetmeats and fruit were served with the choicer wines. The English were essentially meat eaters, and it was not until the time of the commonwealth that pudding attained its extraordinary popularity. Indeed, the first mention of pudding in the menus of the Buckfeast at St. Bartholomew's hospital did not occur until 1710, and in 1712 is an item of 5 shillings for ice.—London Times.

POINTED PARAGRAPHS.

Vanity in a woman is bad enough, but conceit in a man is worse.

You can't tell anything about a man by his looks. Like mince pies, some of them can look very innocent.

If you can't have your way, take consolation from the fact that every man encounters his stone wall.

When parents are old and poor and become a charge to their children the children often act like all persons act who have been paid in advance.

How profligate we are with the hours of rest when it is bedtime and how we haggle over the flying minutes when it is time to get up in the morning!

Mark this in favor of father: The woman who is charging things to father at a dry goods store buys more freely and with less worry than the timid woman who charges to her husband.—Atchison Globe.

Canned Paintings.

Painting under glass may now be preserved indefinitely. Had the men of old known this the pictures of Apelles might still live in the first freshness of their colors, and the work of Raphael and Michael Angelo would look today as it looked when it left the painters' hands. The method of preservation is simple. The canvas is placed in a vacuum. It is preserved, like fruit. It is sealed up from all the destructive influences of the atmosphere. Since metal figures in the operation the canvas might indeed be said to be canned. There is no reason why paintings kept in this manner in a vacuum should not endure indefinitely.

A Safe Place.

General William W. Belknap went to the war of the rebellion as the major of the Fifteenth Iowa infantry. In one of the companies of that regiment was a young fellow named Darby Greely. When the regiment was marching over the gangplanks on to the steamer Sucker State the major sat on his horse close by. As Darby Greely stepped on the plank his mother grabbed him and pulled him to her bosom. With intense emotion she cried and crooned over him and then, seeing the major, she cried, "Darby, me b'y, stick close to the major an' ye'll niver git hurted."

His System.

Shippen Clark to his employer, leaving the office—Oh, Mr. System, haven't you forgotten your umbrella? It's raining, Mr. System—Can't help it. I have made a resolution to have one here and one at home to provide for all emergencies. Now, if I take this one they'll both be at home.—London Tit-Bits.

PLAN GREAT CANAL.

Atlanta Chamber of Commerce Passes Resolution Favoring Construction.

Atlanta, Oct. 3.—The Atlanta chamber of commerce has started a movement for the construction of a great canal which will connect the waters of the Atlantic ocean with those of the Mississippi, by way of the Ohio, Tennessee, Coosa and Oemulgee rivers, united by intervening links of canals, passing by Atlanta, Rome and Macon, and the opening up of the entire state and of the entire southeast.

The action was taken by the directors at a meeting held Tuesday afternoon, when a resolution by C. E. Caverly was adopted. This resolution sets in motion the machinery which will lead to the construction of the canal, and is destined to become a historical document.

To carry out the purposes of the resolution a committee consisting of Directors C.E.Caverly, H. L. Schlesinger, F. J. Paxon, W. S. Duncan and R L. Roreman was appointed.

The matter came up on the reading of a memorandum prepared by the secretary of commerce, W. G. Cooper, which was read at the instance of Mr. Caverly.

ROADS WARNED BY COMER.

Governor Issues Ultimatum Regarding 2-Cent Rate.

Birmingham, Ala., Oct. 3—Governor B. B. Comer, before leaving for the St. Louis waterways convention, issued an ultimatum to certain railroads of Alabama which have so far declined to put into force the new rates provided by the recent legislature. He says unless they fall into line by Oct. 7 the legislature will be called into extra session to deal with them. Said he:

"My statement of August 21 remains in full force, and the call will be made about Oct. 7, unless the reduced rates are sooner made effective by the L. & N, Nashville, Chattanooga and St. Louis, and Central of Georgia railroads."

The governor points out the fact that both in Georgia and Arkansas the railroads have obeyed the orders of the railroad commissions and put into effect 2-cent passenger rates.

Residence Burns at Lanett, Ala.

West Point, Ga., Oct. 3.—While breakfast was being cooked, the residence of B.T.Stephenson, in Lanett, caught fire from a defective stove flue and was burned to the ground Tuesday morning. Commerce, Ga., Oct. 3.—Mr. Richards, the business agent of the Anti-Saloon league of the state, spent the day here Monday, and at 3 o'clock the anti-saloon league was organized at the school auditorium, and the league is now ready for practical uses. This makes 122 leagues in the state.

ITCHING TORTURE OF LITTLE BABY

Head and Face Covered With Awful Itching Sores and Scabs—Would Scratch Until Blood Came—Mother in Despair for Treatment Did No Good—Dread Disease

YIELDED TO CUTICURA ALMOST IMMEDIATELY

"I was in despair about my baby. When he was about two months old his face and head were full of scabs and very itching sores with terrible running matter. I had to tie his little hands in bags for he used to make his face and head bleed. I had two or three doctors but they did not do any good. I was told to try Cuticura Soap and Cuticura Ointment and I can say that they stopped the running matter immediately and soon after I had washed him twice he looked almost well, but I used about three cakes of Cuticura Soap and four or five boxes of Cuticura Ointment, continuing the treatment for two or three months. I also used Cuticura Remedies for my other children and took Cuticura Resolvent myself to purify my milk for my baby whom I nursed while he suffered with that terrible itching and sores he had. Now I always have Cuticura Soap and Ointment in the house handy. I shall be glad if you want to publish this letter so that other sufferers will come to know what good the Cuticura Remedies can do. Mrs. Frances Rizzo, 1205 Dickinson St., Philadelphia, Penn., Nov. 8 and 18, 1906."

HOW BONNER WON SUCCESS

The career of Robert Bonner, the veteran publisher, furnishes a signal illustration of the value of persistent and sagacious advertising. When he began the publication of the paper whose phenomenal success brought him fame and fortune, he did not wait for the people to find out, slowly and gradually, the interesting features of his journal.

He forced his enterprise upon public attention by a systematic lavishness of expenditure for advertising which at that time was without precedent or parallel. Whole pages of daily newspapers were secured at high prices to blazon forth the merits of his undertaking.

From one end of the country to the other the names of Bonner and his Ledger were made familiar to the people by constant repetition.

Conservative publishers, jogging along in the ruts of old routine, prophesied bankruptcy and ruin for this unconventional innovator, but Bonner kept on spending a large share of his receipts in buying publicity, and those receipts increased with startling rapidity.

Every dollar disbursed in this way brought in more dollars until croakers were confounded and pessimists in this particular branch of business silenced by his tremendous success.

The lesson is one that is as well worth heeding today as it was forty years ago.—Philadelphia Bulletin.
